BridgeCare Total cover highlights

- **97% guaranteed uptime**
Enjoy guaranteed uptime of at least 97% per weighing system per year or we'll refund a proportion of your fee.
- **All-inclusive, no hidden costs**
Service cover includes all parts (including load cells), labour, tools and the weighbridge test unit – even cover against lightning!
- **Named, assigned Avery Weigh-Tronix engineers**
Talk directly to engineers who know your operation, equipment and site. Ensure maximum uptime for your asset with health checks highlighting any operating risks.
- **No need for approval**
Don't lose time raising purchase orders. Any call out is automatically approved, as are parts and labour.
- **Online asset dashboard**
Track asset uptime while easily accessing documents, including service visit reports, verification and calibration certificates.
- **Faster reverification**
Our national fleet of ten weighbridge test units delivers the industry's fastest reverification service following repair.

Extensive, cost-effective cover that supports uptime for weighbridges, axle weighbridges and platforms over 5-tonne capacity. Preventative maintenance visits, calibration and call out charges are included. There's a discounted repair service too.

When do I need BridgeCare?

Where your weighbridges aren't critical to revenue, but a failure or fault would cause a serious inconvenience, BridgeCare provides generous cover for preventative maintenance for a highly cost-effective annual fee.
